

INSPECT CREWS TO HALT INFLUX OF BOLSHEVISTS

Advices From Rotterdam Docketed In With Communists' Propaganda in America.

(By Associated Press.)
NEW YORK, Nov. 11.—Inspection of the crews ahead of the passengers on incoming ships was ordered here upon advices from The Hague that Bolshevist agitators "are headed for America" through Holland as a clearing house, Frederick A. Wallis, immigration commissioner, announced today. Commenting on Rotterdam news that Bolshevist agents are planning for the "final battle of communism in the United States," the commissioner said: "Word from Rotterdam that Lenin's and Trotsky's outfit in Russia propose to send an army of 20,000 Bolshevist missionaries to the United States dovetails in with the propaganda of Communists already here that final battle is to be fought out in America."

I am fully aware that the Bolshevist agitators, who are sending for America do not seek admission as aliens. The prospect of being put through the sieve on Ellis Island and being quizzed and searched by the boards of special inquiry is not bright for them, so they are striving to gain admission to the United States as seamen. From several different sources I have received information of attempts to bribe members of the crews of ships. The radicals come either as stowaways or seamen. In the last few days I received a letter from Dr. S. L. Veenstra, professor of the Netherlands department of justice, in which I am furnished valuable leads in this matter. Writing me from The Hague, Dr. Veenstra emphasizes what he hinted to me when he was lately in this country, that the invasion of Holland by radicals and a widespread dread of Bolshevism are the combining influences which are causing many of the best families in Holland to sell their homes and come to the United States."

GROOM GARY AS CANDIDATE FOR MAYOR OF NEW YORK

Head of United States Steel Corporation Advanced for "Next Biggest" Job to Presidency of Country.

(By Associated Press.)
NEW YORK, Nov. 11.—While Democratic and Republican leaders are wrestling with the problem of whom to select as candidates for the forthcoming mayoralty contest in New York City, the name of Elbert H. Gary, head of the United States Steel Corporation, has been advanced. In a communication from Associate Professor Rufus D. Smith, of the Department of Government and Public Economy at New York University, Gary is held to be the man to take up the mayoralty job, which, "next to that of the President of the United States, is the biggest job in the country, and should not be occupied by a man of politicians or idealistic misanthropes who do not know the first rudiments of business practice and efficiency."

GAVE UP HOPE OF BEING WELL AGAIN

Since Taking Plant Juice She Relates Wonderful Story of Health Regained.

NO LONGER FEARS OPERATION

Now Goes About for the First Time in Years, All Due to Plant Juice.

When the delicate machinery of the stomach is not working harmoniously, the stomach not digesting the food properly, poisons are retained in the system which should be expelled. The new herbal stomach remedy, Plant Juice, assists nature by causing the stomach to properly digest the food, when it promptly dissolves or neutralizes all the poisonous acids that fermenting food has left in the stomach, and the digestive machinery, thus relieved of this mischievous acid accumulation, goes naturally and normally about its work of digestion without help of any kind. Plant Juice counteracts acid formation in the stomach, and so-called dyspepsia and indigestion vanish never to return.

Among the thousands of local testimonials received, praising Plant Juice, none is of greater interest than the statement of Mrs. Edward A. Walston, a popular lady of Scotland Neck, N. C., who has resided there for 20 years. She says: "I had been sick for a long time and my stomach was in a very bad condition. I felt weak and miserable, could not sleep and was all run down. I was told that I had gall-stones and would have to have an operation, but when I went to the hospital, I was told I was too weak to stand it. I had given up all hopes of recovery, but I had taken a number of different medicines and been under treatment, but did not get any better. A friend who had taken Plant Juice, begged me to try it, so I got a bottle just to see what it would do for me, as a last resort. I took it for a few days and I felt better. I have taken Plant Juice now several weeks and feel like a new woman. As for gall-stones, I feel as if there were never such a thing. I sleep fine at night and have a splendid appetite for my meals. I came to Norfolk and it was the first time I had been out of the house for months. Plant Juice is wonderful. I am glad to endorse it and recommend it to others."

NEW YORK MAYOR SAYS PROMOTER 'FOOLED' HIM

Hylan Declares He Was Victimized in Interest of the Limestone Ring.

(By Associated Press.)
NEW YORK, Nov. 11.—Under severe questioning by the committee's counsel, Mayor John F. Hylan, on the witness stand before the joint legislative committee investigating the building trust today, admitted he had been made a victim of John T. Hettich's "labor union game in the interests of the limestone ring."

The suggestions contained in a letter to the board of education "explaining" the advantage of limestone over terra cotta, Mayor Hylan said were based solely upon information contained in a memorandum drafted for him by Hettich, whom he said he did not know. This letter, Mr. Hylan declared, was a pure fabrication and a pack of lies.

While the Mayor was on the stand, he was continually in a clash with Samuel Untermyer, of the committee's counsel. It was a battle of wits, which brought demonstrations from the large crowd of spectators who jammed the hearing chamber and allied the lobby of city hall. Several times Senator Lockwood, chairman of the committee, threatened to clear the room if the noisy demonstrations continued.

Mr. Untermyer declared that "labor

leader followers" had "quite a clique" present to applaud favorable remarks made by the witness. Senator Abram Kaplan also opposed Mr. Untermyer's method of examination of the Mayor, declaring that the committee's counsel was "indulging in too many side remarks that have nothing to do with this investigation, largely for the benefit of the gallery."
